DESCRIPTION

This project provides for the design and construction of a 24,000 net square foot new community recreation center. The standard net assignable area of this facility includes a gymnasium, exercise room, social hall, kitchen, senior/community lounge, arts/kiln room, game room, vending space, conference room, offices, lobby, rest rooms, and storage space.

Service Area

This facility will serve the communities in the Mid-County region included in planning areas 31 and 27. This is a densely populated urban area, and the center is projected to serve a population of over 100,000 people.

JUSTIFICATION

This region is one of the most ethnically diverse regions of the County with a projected population approaching 133,000. It is currently served by one M-NCPPC neighborhood center located on Georgia Avenue, which was constructed in 1963. That facility has limited program space, parking capacity, and has a recent history of significant structural deterioration.

Plans and Studies

The Department of Recreation Facility Development Plan (FY97 - FY10) has identified the need for four community centers to serve this region. The July 1998 Park, Recreation and Program Open Space Master Plan prepared by M-NCPPC recommended for development of a facility to serve the Mid-County region.

Specific Data

Cost estimates are based on the Program of Requirements.

Cost Change

Increase reflects revised cost estimate, inflation, and market conditions.

STATUS

Planning.

OTHER

Land acquisition will be funded initially through ALARF, then reimbursed by a future appropriation from this project. The total cost of this project will increase when land expenditures are programmed.

APPROPRIATION AND EXPENDITURE DATA

Date First Appropriation	FY01	(\$000)
Initial Cost Estimate		8,193
